

Did you know that you can still work, even if you receive Social Security benefits (SSI or SSDI)?

Let our Benefits Counselors (WISAs) show you the way!

Our Benefits Counselors (also known as Work Incentives Specialist Advocates or WISAs) work one on one with you to review your benefits and develop a personalized plan for employment.

We can help you...

- Make informed decisions about work and your benefits.
- Maximize work incentives which can help you go back to work and increase how much you can earn while receiving benefits.
- Learn what information you need to report to Social Security.
- Learn how to find out what is on your work record at Social Security and what this means for your benefits.
- Learn what an overpayment is, how you may get one, and how to appeal or negotiate an overpayment if you receive one.

How can I start working with a Benefits Counselor (WISA)?

- If you are working with DARS (Department of Aging and Rehabilitative Services) contact your counselor about your interest.
- Come see us at the Career Center! Contact Jennifer Cardona-Kellett at 703-899-3216 to schedule an appointment.
