You may need information about new rules for **Section 503** of the Rehabilitation Act

It's not new...

Since 1973, section 503 has mandated federal contractors and sub-contractors make an effort to hire qualified people with disabilities.

But the rule is changing....

As of 3/24/2014 contractors and sub-contractors will need a plan in place to ensure **7%** of their workforce are people with disabilities

ServiceSource can help your company by ...

- * **Providing the labor force you need!**
- * **Assisting with policy development**
- * **Examining job descriptions**
- * **Teaching front-line supervisors about sensitivity and accommodations**
